## UTILITY KNIFE WITH SNAP-OFF RETRACTABLE BLADE IN DISPLAY BOX

A two function button enables the knife to be used as an auto-retracting safety knife or as a fixed blade knife. The first button reveals the blade when pushed forward and is sprung to retract the blade when released. The second button is a ratchet-lock blade slider that allows multiple blade positions for custom cutting depths. The aluminium body is fitted with a dual compound ABS and TPR soft-grip for comfort and features a hole for attaching to a lanyard. The blade holder is made from stainless steel for durability. The end cap is removable to allow loading of new blades and features a handy slot for snapping off blades safely

Intended for blades 18 mm

Solid aluminium body

Temporary extension  
of the blade without lock

Blade extension  
with standard lock

Hole for attaching to a lanyard
