

HEAVY-DUTY ONE-HANDED BAR CLAMP

HEAVY DUTY ONE HANDED CLAMPS are professional and reliable devices necessary in every workshop. They are dedicated to both professionals and do-it-yourselfers. Thanks to them, you can clamp and fix the glued elements. One handed clamps deliver the right fit, features, and pressure for any clamping job. Non-marring full-face pads evenly distribute force across clamped surfaces.

Full-face pads

Can be quickly converted to a spreader (spreads from 710 to 1170 mm, depending on the model chosen)

Induction hardened rail for improved strength and durability
