Jakość ma znaczenie

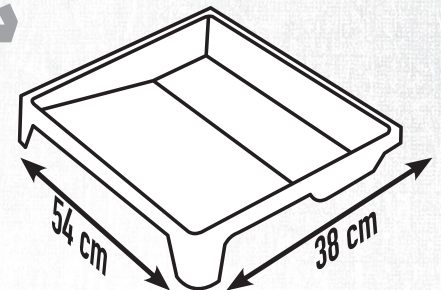

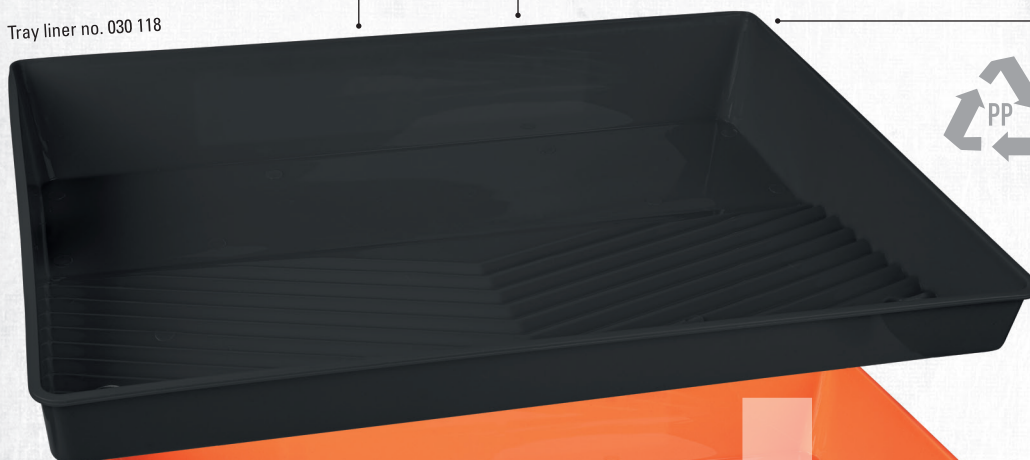

NEW IN OFFER

Flexible and unbreakable material in black color

Ideally suited to the large paint trays

Sold in sets of 3

Tray liner no. 030 118

Paint tray no. 030 304

The tray liner for paint trays are used wherever we use more than one color during painting. One paint tray and the right quantity of tray liners are enough to make quickly change the color of the paint to the desired one. Flexible and thin material, from which the tray liners are made, make them perfectly adhere to the paint tray. Replacing the tray liners shortens the painting time, and above all saves the water that would be used to wash the paint tray. The material of the tray liner is recyclable.
