

MONOLIT

ONE-PIECE STAINLESS STEEL PUTTY KNIFE

One-Piece Stainless Steel Putty Knife combines ultimate performance and extraordinary durability. This premium joint knife delivers remarkable strength. Its flex stainless steel blade is perfect for scraping, painting and drywall applications. Each blade feels nicely „broken-in” from the first moment you use it. This means better feel for faster application rates, optimum blade control and smoother finishes. Polished for easy cleanup. The rivet-free, contoured handle makes it easy to grasp and reduces hand fatigue. Its heavy-duty construction resists corrosion. Five different width sizes drywall knives, 1,5” 2” 3” 4” 6” to meet your essential needs in drywall working. Hanging hole in handle allows for easy storage on wall.
